1. The factory for aircraft parts and other items in Lovech has been partially decentralized by moving parts of it to other cities. Thus, one section of the factory comprising machinery has been transferred to Silistra in Dobrudja where it occupies modern buildings erected by the Rumanians before the war. Another portion which produced aircraft parts has been moved to Kalofer, while the munitions section of the factory has been transferred to Kazanlik.
  2. The only part of the factory remaining in Lovech at present is the food preserves factory which is now being expanded into the buildings vacated by the sections which have been transferred. This canning factory prepares meat preserves, vegetable preserves and other foodstuffs for the army. In addition, agricultural equipment and tools used in construction are manufactured in Lovech. The secondary technical school remains in the old buildings of the factory.
  3. The entire factory area in Lovech with its airport has been renamed the State Cooperative Institute Number 17.
